

JOINT BASE SAN ANTONIO SUSTAINABLE ENERGY WORKSHOP
Pearl Stable, San Antonio, Texas July 12, 2011

JOHN AYALA

Dr. John Ayala, PE, PMP, is President, Falcona Management & Technology, LLC. Dr. Ayala has over 23 years of extensive DOD experience in identifying, customizing, and quickly transitioning new technologies into production environments to improve industrial and supply chain processes. During his Civil Service career, he served as Senior Industrial Engineer, Manufacturing Technology Program Manager, and Combat Developer for the US Army. Following his time within the US Army, Dr. Ayala served 11 years as the Director of the Aerospace, Manufacturing, and Systems Engineering Division for the Texas Engineering Experiment Station where he was responsible for expanding the research/technical expertise of The Texas A&M University System and for establishing partnerships/alliances with industry, government agencies, and other universities. As President of Falcona Management & Technology, LLC, Dr. Ayala works with commercial entities and universities as a Technology Broker to identify new technologies, process improvements, and green technologies (greentech). He also provides Industrial Engineering, Lean Manufacturing, Six-Sigma, and Project Management to a wide range of organizations.
