

JOINT BASE SAN ANTONIO SUSTAINABLE ENERGY WORKSHOP

Pearl Stable, San Antonio, Texas July 12, 2011

DARRELL DAVIS

Darrell Davis is Senior Management Consultant for International Business Machines – Global Business Services & Master Black Belt. He specializes in LSS and Business Process Management. Currently, he is supporting the Dept of Defense – Strategic Management and Performance Dept within the Chief Management Operations Office. He is developing the Operational Energy Management Plan for Joint Base San Antonio that contains an overall roadmap linking energy plan strategy and implementation. He has developed Energy Model Scoring Models for evaluation and prioritization of energy projects, an overall governance structure and scorecards for deployment. Darrell has implemented Business Process Management for computerized workflow and dashboard reporting tools for key operational measures in the Strategic Management Plan, Budget Guidance and High Priority Performance Goals. He has converted manual methods to user friendly systems to reduce reporting cycle time, increasing accuracy and improving overall visibility. He is implementing enhanced Business Process Re-Engineering methods and tools to align DOD funding for systems and business transformations to ensure alignment with strategic objectives and NDAA requirements. In addition, he is conducting strategic and operational analysis of various DOD operations to drive efficiency and effectiveness including Wounded Warrior web services, Call Center Design, and Navy History and Heritage Command Operations Planning and audit preparation. He co-developed Master Black Belt Certification and Business Process Re-engineering materials for DOD-wide certification.
